**Status of Application**

1. Applicant's status inquiry, filed May 16, 2005, has been received and is herein acknowledged. The examiner apologizes for the delay in responding to the inquiry letter. The application is pending in the office and a restriction requirement follows.

**Restriction Requirement**

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- Group I, claims 1-8, directed to a front body cover and fender assembly,  
classified in class 296, subclass 193.09
- Group II, claims 9-15, directed to a vehicle cover having a closure  
permitting access to vehicle maintenance portions, classified in class 180,  
subclass 69.24
- Group III, claims 16 and 17, directed to radiator structure and mounting,  
classified in class 180, subclass 68.4.

Inventions I, II and III are independent as claimed and have different modes of operation, different functions, and/or different effects (MPEP § 806.04, MPEP § 808.01). The claims of Group I are directed to a vehicle cover, body assembly and lighting mount, the claims of Group II are directed to an access opening and cover panel for allowing access to portions of a vehicle requiring maintenance, the claims of Group III are directed to the mounting of a radiator, each group of which supports independent patentability.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and further have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 3618
